

THE CENTRE NEWS UPDATE

NOVEMBER 2009

A MINISTRY OF ASIAN OUTREACH INTERNATIONAL

LOOKING BACK 2009

Opal and Naamhorm

The Centre's Cell Group

Although fewer students came to study at The Centre during 2009, we can still look back over this past year with a lot to thank and praise God for. We saw God moving in student's lives and some of them, like Naamhorm, coming to salvation. Currently she is in The Centre's cellgroup where she and some of the young believers are being discipled. We are also thankful to God for seeing spiritual growth in the young believers lives. All of them are involved in the "Hug Me" project in Phrao where The Centre is reaching out to children, every second Sunday of the month, through different activities and Bible stories. Both the students and the children are benefiting from this project. The students are becoming more confident to reach out to their own people and the children are being evangelized through the Bibles stories that are being taught to them. It is also rewarding to see how students, who came to know the Lord through the ministry, are going into full time ministry. Currently, Wor is serving the Lord in Udon Thani North Eastern Thailand where she is reaching out to the youth. Noon is serving God at Christian Outreach Centre where she is helping missionaries to obtain their work permits and visas. This year's English camp was a great success and we could help students in various ways to improve their English and share the love of God with them.

LOOKING FORWARD 2010

The past month we as staff evaluated The Centre's vision statement, mission statement and core values again. Changes are definitely coming in 2010 which certainly will bring challenges to us. But in the end, to improve the ministry to the glory of God, we will have to face these challenges and by His grace develop this ministry even more to become an instrument God can use more effectively to advance His Kingdom in this part of the world. English classes will still remain the backbone to reach out to Thai students as a way to start evangelizing them. The coffee level will become more and more a place where staff and volunteers can hang out with their students. We will also look into how we can improve the after-class activities, like cooking nights, to draw more students. So God willing, we will be able to update you throughout 2010 on how the ministry is improving and bearing fruit to the glory of His name.
